

# 12th International Conference on Predictive Modelling in Food

June 13-16, 2023 Sapporo, Japan

Dear Madam/ Sir,

The 12<sup>th</sup> Edition of the "International Conference of Predictive Modelling in Food" (ICPMF12) will take place in Sapporo, **Japan**, at Hokkaido University, on the **13-16th June 2023**. This conference will bring together leading academics, research scientists and food business operators who are currently developing and/or making use of predictive modelling tools and risk assessment to enhance the quality and safety of food.

The 12th Edition will be organised to cover four days including: plenary sessions by high profile international scientists; pre-conference symposia and workshops for food scientists and business operators; morning/afternoon oral and poster sessions; in which the following themes will be addressed:

- ✓ Predictive modelling in innovative food processing and preservation technologies
- ✓ Advances in risk assessment methods and tools
- ✓ Integration of omics techniques with predictive modelling and QMRA
- ✓ Novel models of microbial dynamics and interactions in food
- ✓ Individual cell and whole cell modelling
- ✓ Integration of predictive modelling in simulation and optimisation of food processes
- ✓ Application of predictive modelling in life cycle assessment
- ✓ Advances in software and databases tools
- ✓ Meta-analysis protocols and applications

You can support ICPMF12 by means of sponsorship, although tailored partnership proposals are also welcomed. If you have other ideas for becoming a sponsor/partner of the ICPMF12, we are very happy to accommodate and provide you with any additional information you may require. We would like to thank you in advance for considering our request and will be happy to answer any questions you might have on our project.

We look forward to hearing from you.

Prof. Shige Koseki  
ICPMF12 Chair

Dr. Kento Koyama  
ICPMF12 Vice-Chair
